For : LENS MANUFACTURING METHOD THEREOF, AND OPTICAL DEVICE USING THE SAME LENS)	

FIFTH INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
Washington, D.C. 20231

Sir:

Pursuant to the duty of disclosure under 37 C.F.R. 1.56, Applicants are submitting this Fifth Information Disclosure Statement (IDS) and are enclosing an Information Disclosure Citation Form (PTO-1449). This IDS lists references cited in the Annex to the European Search Report (EP 01 10 2912) dated February 3, 2005 that have not been cited previously in the application. A copy of the Search Report is being filed on this same date.

Reference is made to the Search Report and to Applicants' Fourth IDS submitted November 15, 2004. By the Fourth IDS, U.S. Patent Nos. 4,193,671; 4,525,044; 4,619,504; and 5,249,082 already have been cited in this application. The same goes for JP 08-315385. All of these documents are listed in the Search Report but are not cited (again) by this IDS due to their prior citation in the Fourth IDS.

This IDS, however, does list several U.S. patent family members of the three international or Japanese documents cited. Specifically, U.S. patent documents AC and AD on the enclosed PTO-1449 are family members of document AI. Document AE is in the family of document AJ, and documents AF and AG are in the family of document AK.

Applicants certify that each item of information listed on the enclosed PTO-1449 was first cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the IDS.

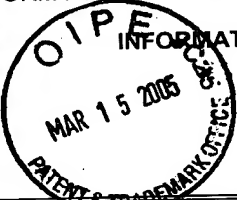

It is respectfully requested that each cited document be considered by the Examiner in the above-identified patent application and that each cited document be made officially of record therein. It is further requested that a listing of the same appear on the face of any patent which may issue from this application.

Respectfully submitted,

SMITH, GAMBRELL & RUSSELL, LLP
